Great book for beginners to advance. There is a bit of an Aussie and English food influence

By MYREVIEW

This book is wonderful there's a Littleton breads like sourdough which looks at everyday starters, also at heated breads, not a lot but enough for those wanting to look at bread and a lot of variations for the more advance but wanting to modern flavors. A lot of tarts, few cookies, few simple cakes, and a lot of savory, pies, empanadas, sausage rolls, and things with an English and mostly Australian flour. Gives a bit of local story telling of Sidney and Burke street in Melbourne. Love this book for the Aussie influence. Great true professional baking book not this let's bake simple terrible recipes. There are professional true recipes for those wanting to advance in their craft. Great full page pics for most every recipe. Highly recommend it

Pretty good recipes but on the kindle version there are ...

By Amazon Customer

Pretty good recipes but on the kindle version there are no page numbers so getting around and finding the

recipes is very difficult.

Fantastic cookbook

By Denise Amey

I purchased this via e book as my son-in-law had the hardcover. It is a great cookbook for different styles.

My son-in-law is a chef and he thinks this book is wonderful.

I thought it would be difficult following a recipe using an ebook, but it was real easy. I cooked bear claws yesterday and they were awesome.
