Not my cup of tea

By Kym McBride

I'm sorry to say, I didn't care for this style of book writing - second person. I picked up this book because EVERYONE uses it as an example of what SECOND PERSON writing is, and that it's a great example of this kind of POV. Well, I'm sorry to differ, maybe I just don't get this second person thing...but it was annoying. Ugh!

I can't say if the writing is good -in it's self, maybe the guy is brilliant, but the STYLE and point of view as second person was just too different for me. I'm giving it a 3 - strickley because I can't tell if its good or not - I put it down pretty quickly. Just be for warned, if you like this style, maybe this book is as good as everyone seems to think.

Stunning

By J. Smallridge

I can see where readers would either love or hate this book. For me, I loved the experience of reading it and have not stopped thinking about it after finishing it. It is full of life -- contradictions throughout, personal failings evident, varying standards of living and responsibility -- and ultimately imperfect. What made this such an enjoyable experience for me was the way in which McInerary constructed the story (even down to his use of 2nd person) and how he drew scenes with such simplicity and such depth. I particularly enjoyed the ending because it totally grabbed me by surprise. This is a classic that did not fail to disappoint.

Mixed feelings.

By Brett

Book arrived in great condition. I don't read often, but the summary of this book hooked me. I liked the theme of the book, but it seemed a little slow in the middle and didn't give me enough of a resolution at the end to be happy. I ended up throwing the book at the wall after finishing the last page. Even after 2 weeks though, I still find myself narrating my own life like the main characters.
