Just what I needed!

By Johanna

I was kind of hesitant to whether or not I should get this book. School had already started and I needed it for my nex class. The book arrived the same week I ordered it, right on time for my nex class. The fact that is a rental is great! I will not be needing this book in the future and I usually donate them; but if someone else can benefit from it like I did, it's all a plus. The condition of the book was great; when I read "rental" and "used" I thought it would be all highlighted, but it wasn't! Way to go Amazon...!

It was okay, but nothing worth buying.

By Jason Campbell

This book is okay and does a solid job at explaining the concepts. However, when it comes to the formulas and doing the math as examples to learn from it falls very short. The algebra has steps missing from it and I am willing to bet most of your economics professors will use a derivation form what it is the book. I would only buy as text book not as a reference.

Fast shipping

By elizabeth sonner

Fast shipping condition was great no complaints. Will be able to use this throughout the entire class and be able to pay it forward to another student
