Goddess: The Secret Lives Of Marilyn Monroe By Anthony Summers. Satisfied reading! This is exactly what we really want to state to you which enjoy reading so a lot. Exactly what about you that claim that reading are only commitment? Don't bother, checking out behavior needs to be begun with some certain reasons. One of them is reading by obligation. As what we intend to provide right here, guide qualified Goddess: The Secret Lives Of Marilyn Monroe By Anthony Summers is not type of required publication. You can enjoy this book Goddess: The Secret Lives Of Marilyn Monroe By Anthony Summers to read.

From Library Journal

Summers claims to have interviewed more than 600 people in the course of writing this book, and the effort shows in this exhaustive and exhausting biography. Overall, the book is well written. Of the new material presented, the most provocative is Summers's assertion that Monroe's corpse was first discovered by Robert Kennedy and Peter Lawford. The reason for the confusion of facts about her death, says Summers, is that a coverup was conducted to hide Monroe's sexual involvement with both John and Robert Kennedy. Since Joe DiMaggio and Arthur Miller declined to be interviewed, this is not the definitive Monroe biography. Still, libraries that do not already have a surfeit of books on Monroe should find this a popular addition. Literary Guild and Doubleday Book Club featured alternates. John Smothers, Monmouth Cty. Lib., Freehold, N.J. Copyright 1985 Reed Business Information, Inc.

GODDESS: THE SECRET LIVES OF MARILYN MONROE BY ANTHONY SUMMERS PDF

The classic, definitive biography of Marilyn Monroe, now updated in the year of the 50th anniversary of the iconic star's death She was born Norma Jeane but the world knew and loved her as Marilyn. Her life was one of unprecedented fame and private misery, her death a tragedy surrounded by mysteries. Drawing on first-hand interviews Anthony Summers offers both a classic biography and a shockingly revealing account of the screen goddess's relations with John and Robert Kennedy. 'The definitive story of the legend ...more convincing at every page - told with all the coldness of truth and the authority of the historian, but at the end of it we still love Marilyn' Maeve Binchy, Irish Times

A+

By Lauren

Goddess: The Secret Lives of Marilyn Monroe is an excellent book! After you finish reading this, you feel as though you've been w/ her every step of the way. The author Anthony Summers goes into great detail of her childhood, struggles of becoming famous, her marriages and divorces, her mental breakdown, etc. A little less than half the book is about Marilyn's death. Summers is quick to give us possible causes of the tragic

event backed up w/ testimonies, interviews, and police reports. Instead of forcing the THIS IS HOW MARILYN DIED routine on us, he lets us decide for ourselves. MANY MANY MANY people were interviewed for this book, including a lot of Marilyn's friends (and so called friends) One thing this book does prove is that Marilyn was definitely involved sexually w/ both of the Kennedy brothers (JFK and Robert) around the last months of her life. Lots of pictures are included (there is even one of her after her autopsy) and copies of police reports and even some of Marilyn's personal letters!! This book is EXCELLENT, and you will not want to put it down. Marilyn is one of the most interesting people you can read about. So beautiful and talented, but so afraid and fragile...too bad this book is Out of print ~ FIND THIS BOOK: you won't regret it!!

Perhaps the Best Marilyn Biography Ever...

By A Customer

Anthony Summers is a respected British investigative reporter, and he's not afraid to delve into controversial subjects. Among other things, he's written one of the best-researched - and most controversial - books on the JFK assassination ("Conspiracy"). In "Goddess" Summers offers us a thoroughly-researched, extremely well-written account of one of Hollywood's greatest - and most tragic - actresses. The first two-thirds of the book takes us through Marilyn's turbulent life and film career. She never knew her father, and her mother suffered from schizophrenia and eventually was sent to a mental hospital - and as a result Marilyn (real name: Norma Jean Baker) constantly feared that she would also suffer a mental breakdown someday. Her life was a series of foster parents, short-lived love affairs that usually ended badly, sexual promiscuity, three (and possibly four, as Summers discovers) marriages, and always the hope on Marilyn's part that she could find the "right man," get married, and settle down to raise a happy family.

Of course, that never happened, and Summers writes sympathetically of her unhappy life - and of her brilliant acting career, in which she often drew upon her personal unhappiness for her best performances. The final one-third of the book generated considerable controversy when it was published in the 1980s, and it's not hard to see why. Summers argues that Monroe didn't commit suicide but was murdered - a murder that was covered up and made to look like a suicide. He also argues that she was "clearly" involved with the Kennedy brothers in her last days, and that her murder may have been tied to her relationship with them. He even implies that Bobby Kennedy may have been present in her home at the time of her death - a charge which seems fantastic, but Summers has interviewed enough people to prove that there were some strange things going on the night that she died. However, even if you don't believe Summers' murder theories, the first part of the book does offer one of the best, and most sympathetic, biographies of Marilyn's brief but brilliant life ever written. If you could only read one biography of Marilyn, then "Goddess" should be it.

Possibly the most complete that it can get

By Christopher M. MacNeil

There will never be "the definitive" Marilyn Monroe biography without the intimate contributions of husbands No. 2 and 3, Joe DiMaggio and Arthur Miller. Even if the fabled playwright shares publicly his life with filmdom's eternal goddess, DiMaggio never did and, obviously, never will. Still, this contribution by Anthony Summers, first published in 1984, may be as close as it gets. In his acknowledgements, Summers claims a near-obsession that consumed almost two years of his life. Little wonder: he claims and minutely credits and cites more than 600 subjects who were interviewed in the course of his research. About the only criticism that can be lodged is the book's title. Implying we're about to read nothing more than the sexual conquests of the world's most famous woman of her time, we instead get a thoroughly comprehensive life history that begins even before her birth June 1, 1926, and continues well beyond her death that swelteringly hot August night in 1962. In between, thanks to Summers' prose and sources whose claims were checked and rechecked for confirmation, we get something that few other writers have achieved, much less attempted: a

psycho-biography that explains the reasons for the legendary insecurity that Norma Jean Baker could never quite overcome even as the world's most desired woman. Even in his passages about the amazing but all-too-short film career, Summers manages to keep us focused on Norma Jean and her reality behind the facade that was Marilyn. Of course, Summers has to deal with his subject's still controversial death, and "The Candle Burns Down," the segment of the book that centers on Monroe's final days, is so detailed that Summers' own explanation for Marilyn's death sounds as plausible as any theory posited. No, he doesn't buy into the theory that she was murdered by the mob or Kennedy operatives, but that her death was an accidental overdose of Seconals. But Summers does submit that Monroe was cruelly exploited sexually and passed sexually from one Kennedy brother to the other, one the president and the other the attorney general, and that it was Robert Kennedy who found the overdosed star in her home and arranged for the ambulance to the hospital and, after her death en route, covered up his involvement with the help of brother-in-law Peter Lawford. Summers' exhaustively researched finished product distinguishes itself from most other Monroe books in that he doesn't exploit his subject's insecurity and private demons or sexual prowess. Instead, Monroe is treated here with dignity and respect and, in the end, we are left with the feeling that we have read Norma Jean's life history, not that of a creation named Marilyn. And it is on Norma Jean's fears that prevented her alter-ego from recognizing her own worth as both a person and actress that accounts for the legend that is Marilyn Monroe. Summers' book is an important contribution to the literature that seeks to explain and understand the fragile psyche of this truly and tragically wounded soul.
