SOLITUDE SPRINGS CREATIVITY

By mindfully

This book was an honest account of May Sarton's struggle with depression and her strong need for solitude. She expressed her great frustration with going away from her writing space and yet still struggled with her own loneliness. She is a complex, direct and somewhat unhappy but she tries to seek out people whom are not threatening to her by invading her space or trying to hard to understand her need for solitude. This is a valuable work to read if you consider yourself a creator with a strong need for silence to think thoughts and create.

I read this book 2 years ago, and Sarton's description of the life of a writer has continued to inspire me. I am challenging myself to also achieve writing in a snug house in the snow, looking back on a well-written life.

I would read this again and again. She is an inspiration. It is early in her life. But as a poet, she gave me hope. Her description of her life it seems she was bipolar and I am too.
