Dull

By Laurie R. Taylor

While a book on any theory for nursing would put me in a coma, this one really does. I don't know why academicians feel a need to use 45 words to say something that could be said in 10. Additionally, most of the time, I have to go back and reread sentences over because they are so convoluted and sound like the authors spent weeks in a thesaurus. Truly intelligent people can break down complex concepts into very understandable explanations. These authors don't fit in that category of intelligence!

Rented it.

By Betty Collier

It was nice to be able to rent a text book. Sometimes we may only open or use very expensive texts books a couple of times. Then when it is time to re-sale, you may get 1/4 of what you paid for it back. I loved that I was able to get it immediately on my kindle, as I forgot to get this one! Will certainly be using this option more often!
