NATIONAL REGISTRY PARAMEDIC EXAMINATION STRATEGIES, PRACTICE & REVIEW (KAPLAN TEST PREP) BY KAPLAN MEDICAL PDF

For the first time, study with Kaplan for the National Registry Paramedic Examination!

Kaplan has brought its time-tested review practices to the National Registry Paramedic Exam (NRPE). Emergency response careers are on the rise with more and more EMTs moving up into paramedic positions, yet there is little guidance available to students preparing for the national exam. NRPE Strategies, Practice & Review is a comprehensive study tool designed to tackle the NRPE head-on. Content is presented in dynamic, reader-friendly sections with hundreds of full-color figures and tables to improve understanding and retention. Kaplan's NRPE Strategies, Practice & Review provides test-taking strategies and review for this complex exam.

This first edition features:

- * Overview of the NRPE and test-taking strategies
- * Content weighted to match the NRPE
- * Concise review of the material tested on the exam, including: Physiology, Pharmacology, Respiratory Emergencies, Cardiac Emergencies, Shock, Trauma, Obstetrics and Gynecology, Pediatrics, the Psychomotor Exam, and more!
- * Board-style Q&A with detailed answer explanations in each chapter
- * Full-color figures and tables to aid in understanding and retention

So far so good

By c magill

Ok I am about 3 months out from taking the national registry, I have been looking for something to give me a straight forward review of things and this is it. As we all know alot of paramedic books are fluff filled with literally thousands of pages of paragraphs with a few good medical facts inside of them. EMS is moving forward with more aggressive protocols and higher expectations so we need books that don't have all the fluff we need straight forward information to help us meet the new expectations. This book is about 400 pages and from what I have read so far gets straight to the facts. There are tests at the end of the chapters and a medication review at the end of the book. I will read on and update when I get further in. I really think this book will help bridge the gap if you are need a good straight to the point review.

Welcome addition

By AnAmazonCustomer

Kaplan has long been a leader in the field of test prep and this is no exception. Very well written with clear sample questions and trial test, this also includes study strategies and review that is relevant to the actual testing situation. Best of all, this is one of the more difficult to find exam prep subjects so is a welcome addition.
