O21X - ARBAN COMPLETE CONSERVATORY METHOD FOR TRUMPET (NEW AUTHENTIC EDITION WITH ACCOMPANIMENT AND PERFORMANCE CD) (ENGLISH, FRENCH AND GE PDF

Carl Fischer is proud to present a new edition of the method of choice for generations of trumpet players. The New Authentic Edition of Arban's Complete Conservatory Method contains the same tried and true comprehensive system of study that Arban developed over a century ago, and this completely re-engraved edition has been painstakingly edited by prominent trumpet performers and teachers Thomas Hooten and Jennifer Marotta. In re-editing the method, Hooten and Marotta have kept the Arban system intact, while adding some of their own insights with respect to how trumpet is taught today. Purists and modernists alike will welcome this new edition. Arban's time-tested pedagogical sequence has also been given a fresh new layout for easier reading. As an added bonus, the enclosed CD contains spectacular performances by Thomas Hooten of all of the 14 Characteristic Studies as well as piano accompaniments for the Fantasies performed by John Walker. All tracks are in MP3 format and can be downloaded to your desktop or MP3 player/iPod. The CD also contains the original text from the first edition of the Arban method in PDF form, including multi-language translations. The Arban Complete Conservatory Method is the definitive must-have for all trumpet players. With this masterful new edition and all of its extra resources, the Arban will remain the driving force in trumpet education for generations to come.

Unacceptable errors

By Chris Lash

I have been using the Arban book since the beginning of high school and was thrilled to see a new edition boasting clean engraving. This new edition spreads out the exercises so they are easier to read. It is truly impossible to describe how great this is unless you see it.

HOWEVER...

This book is riddled with errors! I couldn't believe it and neither could my university's trumpet instructor. At first it was one error, which was fine. By the end on one lesson we had noticed dozens of errors. This is

completely unacceptable, especially considering this method book is the absolute standard for Trumpet and they are boasting brand-new editors.

Some examples (Pages and numbers are from old Arban):

Pg. 151. #60: This exercise is in E minor yet the new edition puts the key signature as D minor while all the note placements stay the same! This ends up changing many of the accidentals in the exercise making most of the diminished 7th chords incorrect.

Pg 150. #58: 10th measure from the end the last eight note is incorrectly printed as a "C" instead of a "D." Several accidentals are either missing or flat out incorrect.

These are just a few of the examples I have found. I have emailed Carl Fischer, the publisher, to add to the list of errors that have admitted to already receiving. I have been informed that they plan to reprint the book there is just no timeframe yet. Until there is a reprint,

DO NOT BUY THIS BOOK!

This is a great new printing of Arban's

By dhbailey

This new edition of Arban's has been completely re-engraved so the printing is all clear, easy to read, and pieces that had been crammed onto a single page in the original (which is still sold by Carl Fischer!) printing are now spread out over 2 pages! The examples on the CD are a great teaching tool, as are the accompaniments which are recorded, and the inclusion of the original remarks is a great historical artifact. The only downside, as with the "original" version that Carl Fischer still sells (the one with the red cover), is that it has a "perfect" binding (that's where they use glue to hold the pages in and the binding is flat). I have no idea why that's called a "perfect" binding because it is definitely NOT perfect for a musician since the book doesn't lie open on the stand very easily. I found a solution to such problems, though - I bring perfect-bound books to my locally owned copy shop (not Kinko's or FedEx or Staples) and have them convert it to a coil binding. For \$3 they slice off the "perfect" binding's spine, then use a machine to drill all the holes and then put in a plastic-coated coil, and now the book really is perfect! This is a welcome addition to the trumpet student (of all ability levels) library.

Can't argue with Arban

By Pinstriper

This is, of course, a paperback, and very thick, with a glued binding.

Do yourself a favor and take the book to the nearest FedEx/Kinkos. For less than \$5 they will slice off the binding and bind it with a plastic spiral so it will lay flat. You will need a sturdy music stand to hold the thing, but you can then put the whole book flat and play directly out of it.
