This is a great book for the second level guitarist

By Dee Alan Willis

This is a great book for the second level guitarist. If you have taken guitar for one year or more, then this would be a great book for playing

popular jazz songs for the guitar. It is good for finger style or classical style players. It is for guitarist who read music or who are learning to read

music. Have fun!

Great book with songs that most everyone knows

By Diana P

I just bought this book and it is a great book for an early classical guitar learner like me, who wishes to quickly be able to play recognizable songs and melodies. Lots of gems here. Standard notation and tablature included. Gets you playing right away. Some songs will be harder to play than others (i.e. ones that includes notes further up the fretboard) but most are doable. I can't wait to get "Moon River" down so that I can play it for my mom.
