'Beautifully printed and presented, written with style and flair by two respected lecturers in business studies at the University of the West of England's Bristol-based business school, it reminded me of how many decades have passed since my own studies, and how much I would have welcomed a text book such as this, had one been available at that time....[W]hile I do feel it would interest anyone fascinated by the history of Leadership, a critical appraisal of where it stands today, how it impacts on so many other disciplines that are usually not treated at length in other texts, and where it is heading, it is clearly of real interest and usefulness to university and postgraduate students, to whom it will provide a lot of food for thought and study.'
