I can't really put into words how much I hate that I have no choice but to continue doing ...

By Daniel Reed

This review is toward Cengage Learning and the corrupt pricing scheme that forces students to pay exuberant prices for text books. I rented this book(kindle) for \$96 on May 27th. In the past anytime I have rented books its lasted the entire time of the semester. For some reason this time it was for only 1 month. \$96 for one freaking month. The book rental expired before I even noticed and had to rent the book again for \$113. This time the rental last until Sept 26th.

\$96 for one months.

\$113 for three months.

They have monopoly on text book sells, every book I get goes through them. I can't really put into words how much I hate that I have no choice but to continue doing business with them.

Its bad enough that they gouge us on books but now I have to also sign up for horrible SAM software. Just disgraceful and maybe one day someone will notice how much of a burden this company puts on students.

P.S. The book is very well written!

and semi useless. I'm also forced to use an access code

By pwn

Overpriced, and semi useless. I'm also forced to use an access code. You would not believe how expensive these things are for the value they give back. I heavily dislike having to buy an access code. The free market should've taught these guys a lesson about overpricing, but they get into exclusive deals with schools and lure them into forcing their students to pay up or fail.
