Easy read and great thriller

By kim taeuber

I've read a lot of books of similar genre - Michael Connelly and Harry Bosch for example. Each book of this genre I've read individually, never one after the other as I did with the Mak Collection. As I love watching characters develop within each book I found reading all five back-to-back as an added bonus to the obvious quality of the book. Also, I had a bit of background from previous stories and this helped with 'putting the pieces together' and the overall enjoyment of the stories.

The characters are all well developed and realistic and the reader can readily identify with them and their vulnerabilities. Mak as the international model from Canada and Loulou, Mak's eccentric friend, were my favourites. Unfortunately some authors create unrealistic situations - Tara Moss is not one of them. Tara clearly takes time to make sure the storyline is realistic and I found myself wondering if she had tried some of the situations herself.

The stories - they are all 'page-turners' that you won't be able to put down. I enjoyed them a lot. I won't go into detail re the plots of each one - you can find that elsewhere on Amazon. If you like thrillers and detective fiction with a bit of romance thrown in then these books are for you. You won't be disappointed.
