Fascinating Read

By K.C.

I don't often do book reviews, but I just wanted to give this series a plug. It has the most fascinating "plot" running through the series and I'm always amazed at the creative ideas that some authors are able to come up with and build into fascinating stories that keep you wanting more, even though they are totally removed from reality as we know it. I am about half way through Book 4 and I'm forcing myself to slow down because I figure it may be a while before the next book comes out - which is the reason for my review. The authors always ask readers to give reviews so that they can spend their time writing more books instead of having to spend their time marketing their current books. So, Keep on writing Teyla -- can't wait to see what you come up with next.

Refreshing

By Dottie PC

I read the whole series, which is odd for me. I usually read the first book, then start another book by another author, but with this series, as soon as I finished one book I'd buy the next one and not come up for air until it was time to buy the next book. The action is almost non-stop. There is something for everyone in this series. And it's clean entertainment which is rare today. After finishing the last book I wanted more since I got so attached to the characters, who are almost immortal. You will not be disappointed with these books.

Excellent series! Well Done!

By Crispin Frame

I have read each of these books and literally could not put them down for long. I was completely pulled into the story and the lives of each character, I enjoyed reading these books that did not have vampire and werewolf junk in them, I also enjoyed the fact that it was not dripping in sex and cursing. In my opinion many books have an overflow and leave nothing to our own imaginations. I will say between books there was no relaxing of the suspense it built and stayed right on the edge throughout, Well done! Thank you!
